Public-goods funding (PGF)

An application of the Decentralized Curation framework.

POOL CREATOR

Define purpose and policy
Evidence requirements
and fixed economic rules

NOMINATOR

Publish claims and evidence
Identify contribution and beneficiary
Request a weight; post the bond

POOL FUNDERS

Fund the costs of curation
Distribution budget may come later

FOLLOW THE ARROWS

- Main sequence
- Challenge / decision
- Return / conditional
- Optional funding

New nomination; new bond

01 ACCURACY GATE

Can the factual claims withstand challenge?

PROTOCOL

Check bond and structural rules
Admit the nomination provisionally
No prior truth approval

PUBLIC FACT-CHECKER

Any time while nomination is active
Contest false or non-falsifiable claims
Post counter-stake, tax and fees

ARBITRATOR + PROTOCOL

Arbitrator examines the dispute
Existing earning continues
Earned funds stay claimable
Later nomination exit queues

EXTERNAL ARBITRATOR

Challenge upheld?

Upheld

PROTOCOL

Close the failed nomination
Bond to fact-checker; future funding stops
Accrued funding remains owed

Previously funded contests still settle.
Earned funds remain owed, paid or unclaimed.
Queued nomination exit is cancelled.

Timeout

PROTOCOL

Apply existing timeout rules
Limit detention; no truth approval

Rejected

PROTOCOL

Resume the nomination
Counter-stake to the nominator
Queued exit may then proceed

Restore eligibility

Continue while eligible

Optional funding

02 RELEVANCE GATE

How much does it matter under the policy?

PROTOCOL + CURATORS

Curators stake to join the draw
Protocol selects the jury
Curators assess, commit and reveal

PROTOCOL

At least 80% valid reveal weight?

Met

Not met

Retry if allowed

PROTOCOL

Record failure; no ruling or fee
Complete required failure steps
Allow retry under round rules

PROTOCOL

After early-disclosure reporting window closes
Compute weighted-mean score
Credit fees per valid revealed seat

Apply issued score
Under pool adoption rules

PUBLIC APPEAL BACKERS

Propose and fund score positions
Protocol enforces the windows
One position per distinct score

2+ funded scores

PROTOCOL + CURATORS

Combine backing; draw larger jury
Double the previous planned seats
Curators use the same judging process

PROTOCOL

Fully funded score positions?

0 or 1

PROTOCOL

0: retain issued score
1: adopt funded score
Settle adjudicated pots
Backers collect payouts

Final score

Next appeal jury

PROTOCOL

Use this revision's adopted score
Produce curated weights
Distribution budget optional

PROTOCOL

Cap by request and score
Normalize eligible weights
Positive total: shares sum to 1
Zero total: no allocation

PROTOCOL + BENEFICIARIES

Apply funding when available
New nominations serve holdback
Earned funds are immediately claimable

Protocol steps execute through calls, not an autonomous evaluator. Quorum: timely valid reveals cover at least 80% of original drawn weight.
Nonempty draw required. Appeal retries keep their target without a limit. Sole-funded positions: full refund, no fee or profit; forfeiture is not consensus.

Utility token: jury stake and coherence. Ether (ETH): service fees, funding and financial positions. Agreement is not proof of truth or public benefit.
