Decentralized curation

Putting self-interest to work for the public good.

Decentralized Curation research by Ferit Tunçer.
Institute of Open Science Practices (IOSP) 2026, Leiden

Sponsored by Octant

Who judges research?
What do we reward?

Read → Cite → Reuse → Fund

Every step depends on judgment.

Curate what matters.
Distribute when ready.

Set the policy Pool creator

Nominate
Claims + bond

→

Judge relevance
Drawn jury

→

Curated shares
Ready for later funding

Accuracy: challenge claims anytime active

Relevance: appeal + re-score

Start with a public policy.

How much does this nominee's completed and maintained work underpin how research is done, shared and kept, now?

0.00	0.25	0.50	0.75	1.00
not infrastructure	matters to one field	relied on in several fields	widely relied on	critical across research

Evidence + Criteria + Fixed terms

This pool's authored policy, not a universal rubric · Policy reference

A claim you can check.

NUMPY 2.0.0

> “Released on 16 June 2024.”

Release record ↗

Delivery + Downstream use + Migration costs

Real release; illustrative nomination and scores · Release notes · Migration guide

One jury.
Different judgments.

6 seats · 3 curators

Curator A 3 tickets — 0.700

Curator B 2 tickets — 0.400

Curator C 1 tickets — 0.700

STAKE-WEIGHTED MEAN

0.600

(3 × 0.70 + 2 × 0.40 + 1 × 0.70) ÷ 6 = 0.600

Commit → reveal

Illustrative reports; one curator may hold several seats · Grading is separate

Disagree?
Fund another hearing.

INITIAL JURY

6

seats · score **0.600**

→

CONTESTED APPEAL

12

seats · score **0.700**

8 at 0.800; 4 at 0.500

Public backers. Larger jury. A revisable score.

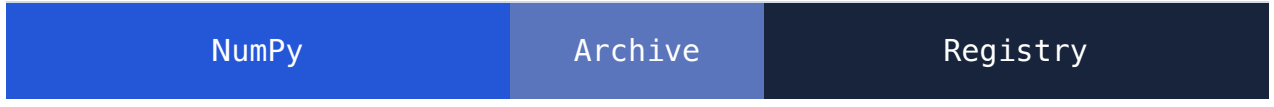

Intended crowdfunding design; an unopposed funded score wins by forfeiture · Details

Curated shares.
Ready for any budget.

`effective weight = min(requested weight, adopted score)`

WEIGHTS → NORMALIZED SHARES

Nominee	Request	Score	Weight	Share	Units/day
NumPy	0.800	0.600	0.600	40.0%	**0.00**
Archive	0.700	0.300	0.300	20.0%	**0.00**
Registry	0.600	0.900	0.600	40.0%	**0.00**

NUMPY'S SHARE

40.0%

Illustrative distribution: **0** units/day

`0 × 40.0% = 0.00 units/day`

NEW NOMINATION, AFTER ADMISSION HOLDBACK

Set funding to zero: the shares remain. Shown after admission holdback; not measured fractions of public benefit.

Facts can be challenged.

COUNTERFACTUAL CLAIM

> “NumPy 1.x C extensions work unchanged in 2.0.”

These extensions require rebuilding ↗

Challenge → External arbitrator →

Debunked?

Bond lost; future funding stops

Illustration, not a verdict about NumPy. Previously earned funding remains owed.

New judgment.
New funding shares.

INITIAL SCORE

0.600

LATER SCORE

0.300

NUMPY / DAY

25.00

Lower weight takes effect immediately. Earlier accrual stays earned; only future accrual uses the new shares.

Illustrative re-score; return to the allocation.

Rules can be enforced.
Judgment must earn trust.

01

A DEFENSIBLE POLICY

02

USABLE EVIDENCE

03

INDEPENDENT SCRUTINY

Agreement alone is not enough.

Now you are the jury.

NumPy

Read → Score alone → Seal → Open together

Keep your salt words private. Explain the evidence behind your score.

Agreement ≠ accuracy.

What did we reward?

What shaped the reference?

What would change your mind?

One room and an assigned bloc do not establish a safe collusion threshold.

Every defense has a boundary.

Attack	Response	Still exposed
Shift the criteria	Public policy	Bad policy; shared bias
Copy a score	Commit → reveal	Early reveals; coordination
Capture the jury	Stake-backed draw	Concentrated stake
Keep a bad ruling	Publicly funded appeal	Cost; shared bias
Prove a sealed score to a buyer	Workshop only: penalty + bounty	Other verification routes remain; no corresponding contract penalty found

Crowdfunded appeals: intended design. Other boundaries: inspected implementation. Details

Start smaller.
Learn before scaling.

PLANNED PRECURSOR

ARROW

Invited experts
Real funding docket

→

DESTINATION

FULL SYSTEM

Open participation
Adversarial conditions

Arrow assumes honesty, competence and non-collusion. No experiment results are claimed.

What would change our minds?

01

UNDERSTAND THE POLICY

02

RESPOND TO EVIDENCE

03

IMPROVE JUDGMENT

04

DELIVER PUBLIC BENEFIT

Earning more is not the success criterion.

Make scrutiny worthwhile.

Better shared judgment.
Better consequences.
